SOFT LIVING

Twiny

Twiny combines visual appeal functionality in a compact, modern design, ideal for any room from the kid's bedroom to the living room. With its space-saving size, it adapts seamlessly to any domestic or contract setting for use in the middle of the room, in an overhead wardrobe or in compact spaces.

The collection is divided into six models, organised into two functional variants. The first with a second pull-out bed base or containers, designed to offer practical and versatile solutions, and the second with a container box and assisted lift-up bed base, ideal for optimising space.

All the models are available with two mattress sizes to meet various requirements for comfort and use.

Starting with the basic bed base, the bed program offers numerous customisation options, with different headboard, side and footboard configurations that can be combined to suit individual styles and needs.

The offer is complete with numerous options, covers, finishes and accessories for a tailor-made product that combines comfort, functionality and design.

Second single bed, double bed or extra space?

Twiny shapes your lifestyle.

The pull-out bed base can be joined to create a perfectly aligned, comfortable double bed with no height difference. If you are looking for extra storage space, you can choose between handy deep drawers or container boxes.

Choose a sofa if you prefer..

Twiny is both a comfortable and practical sofa, designed for making the most of your space, with deep drawers, boxes or a pull-out bed base.
