

# Hand made in Italy since 1990

We have a great responsibility: being the centrepiece of comfort in your home, accompanying you day in day out in your search for the utmost pleasure in relaxation. This is why our collection of sofa beds is continually evolving.

We aim through upgraded solutions and technologies to continuously improve the quality of our materials, mechanisms and finish-

es, to constantly reset the boundaries of comfort. It is a process that combines the search for refined aesthetic taste and creating homely atmospheres with an emphasis on bold statements of style. By day, but also at night time, when chats on the couch make way for well-earned rest in a practical, comfortable bed..
