

## GLOVE: style that oozes comfort

Forms and volume that convey a sense of generous relaxation, Glove's charm is **style** that oozes **comfort**. This new Felis design sofa with its characteristic **fold-in armrests** creates the opportunity to provide soft support, even whilst lying down.

In Glove the architecture of comfort liaises with motion technology. By simply changing the reclining angle, this latest generation sofa redefines space and moments in your everyday life.

Glove is available as a **fixed version**, on which the headrests can be tilted manually into as many as 15 positions, or **electric one**. On the electric version, the **double recliner mechanism** conveniently adjusts both the seats and the headrests. While the UPS battery system gives the sofa the freedom to take centre stage in your living room.

Complete creative freedom: the motorised and fixed sections can in fact be arranged as you like to create sofas to suit all requirements. What remains consistent is the certainty of Felis' **highest manufacturing quality** combined with a **contemporary design**.

### FELIS: 30 YEARS OF PADDED FURNITURE MADE IN ITALY

Living in as much comfort as possible, whilst never foregoing **style**. More than simply offering **padded furniture**, Felis wants its customers to **"experience"** genuine positivity by making the environment – living room or bedroom – not only welcoming and relaxing but also truly **beautiful to look at**. Es-

## SOFT SUPPORT

Fels' highest manufacturing quality combined with a contemporary design

established in 1990, with headquarters in Sacle in the province of Pordenone, Felis is run by the **Marcon Family**. Also present in the Company alongside the Founder and current CEO, Francesco, are his children Gianluca, Product Manager and Marketing Manager, and Alessia, Managing Director. For 30 years Felis has been offering Made in Italy collections of sofas, sofa beds, beds and furnishing accessories, which have always guaranteed **comfort, quality, and durability over time**. The latest proposals in particular stand apart for their originality, **exclusive patents** designed to improve **relaxation and product appeal** and exclusive design, which is always combined with complete **customisation**, a distinctive feature of Felis products. There are in fact over a hundred models available in various sizes to suit to different requirements, which can be upholstered in **over 750 different fabrics**. Great emphasis is placed on **new technologies**, both in production, where plenty of attention is paid to

protecting and safeguarding the environment; and in marketing, through the use of social networks, 3D configurator and advanced CRM. Despite Felis using cutting-edge machinery in its manufacturing processes, **the level of craftsmanship remains high**. The production of padded furniture in fact requires constant manual workmanship, which the Company finds in its specialised craftsmen, offering the customer the opportunity for maximum product customisation. Like a tailor, Felis **custom-builds padded furniture** for its customers, both private and contract.

Distributed throughout Italy, Felis sofas and beds are already sold in **several European Union countries** and **non-European states** yet the Company has always set its sights set further ahead, with the aim of taking them all over the world.
