## GLOVE

Forms and volumes that convey a sense of generous relaxation: Glove is the charm of style combined with the utmost comfort.

You can also use the characteristic fold-in armrests to provide soft support whilst lying down.

### **Clair: a tribute to the power of design to seduce**

Inspiration with a slightly retro taste, an echo of '60s and '70s trends revisited with a contemporary twist. Eyecatching design and padding invite you to come and sit down. Irreverent conical feet in four finishes and brightly coloured velvet covers – just one of the endless interpretations made possible by the wide range of Felis fabrics. The rounded backrest meets the more square lines of the armrests. Clair is the ideal place to indulge in relaxation, perhaps immersed in a good book.
